I am a highly intelligent piece of paper.
Let's play noughts and crosses.

I will play as crosses, and I go first.

Move 1:
Go in a corner.

Move 2:
IF the other player did not go in the opposite corner,
THEN go there.
ELSE, then go in a free corner.

Move 3:
IF there are 2 Xs and a space in a line,
THEN go in that space.
ELSE, IF there are 2 Os and a space in a line,
THEN go in that space.
ELSE, go in a free corner.

Move 4:
IF there are 2 Xs and a space in a line,
THEN go in that space.
ELSE, IF there are 2 Os and a space ina line,
THEN go in that space.
ELSE go in a free corner.

Move 5:
Go in the free space
